MONTANA WHEAT SHIPPED TO OUT-OF-STATE DESTINATIONS

FIRST HALF WHEAT SHIPMENTS DOWN: Montana wheat shipped out of State during January-June 1975 totaled 25.4 million bushels--down 26 percent from the same period in 1974. Winter wheat made up 59 percent of the total wheat shipped with 14.9 million bushels.

Wheat transported west accounted for 88 percent of the outward movement, eastward bound wheat accounted for 10 percent, and the remaining 2 percent went other directions. The percentage of wheat shipped by rail decreased from 83 percent in 1974 to 69 percent in 1975. Trucks shipped out 31 percent of the wheat in the first half of 1975. Part of this change in methods of transport may be attributed to the opening of the Port of Lewiston in northern Idaho to where wheat has been transported primarily by truck. Also, eastern movement by truck is more than double last year.

The 1975 data are based on reports from elevators representing 91 percent of the commercial storage capacity in Montana and reports from licensed truckers (coverage for 1974 data was 95 percent). Unrecorded market channels moving wheat are not accounted for in this report.

MONTANA WHEAT SHIPPED TO OUT OF STATE DESTINATIONS--JULY-DECEMBER 1973 & 1974

JULY - DECEMBER 1974 WHEAT MOVEMENT DOWN FROM 1973: Montana wheat shipments to out-of-State destinations in the last 6 months of Calendar year 1974 totaled 49.3 million bushels--6 percent less than 1973 shipments. Part of the reduction is due to reduced survey response--about 2 percent. Spring wheat movement amounted to 18.6 million bushels--down 13 percent from last year; winter wheat movement was 30.7 million--down about 2 percent. Wheat moving to eastern destinations accounted for almost 7 percent of total shipments this year July - December 1974 compared with 2 percent in July - December 1973.

Trucks hauled nearly 16 percent of the wheat moving out of State the last half of 1974 compared with 15 percent trucked out in 1973.

This report is based on data from commercial elevators representing 93 percent of the commercial storage capacity in Montana and from licensed truckers. It does not include wheat moved through unrecorded channels.

Released: June 10, 1975 -- Helena, Montana

STATE

ENTS

MONTANA WHEAT SHIPPED TO OUT-OF-STATE DESTINATIONS

WHEAT SHIPMENTS SHOW DECLINE: Shipments of Montana wheat declined 35 percent during January - June 1974 compared with the first half of 1973. The decrease is largely attributed to reduced shipments to meet foreign export commitments. The 1973 movement was at unusually high levels as exporters filled USSR and China orders, along with their normal export trade. Winter wheat accounted for 19,331,000 bushels (56 percent) of the 34,511,000 total transported out of State.

Western-bound wheat accounted for just over 95 percent of exports, with most of the remaining 5 percent going east. Rail transport has retained its 83 percent share and trucks account for 17 percent.

These data are based on reports from elevators representing 95 percent of the commercial storage capacity in Montana and reports from licensed truckers. Unrecorded market channels moving wheat are not accounted for in this report.

Statistical Reporting Service
USDA

Released: March 27, 1974 -- Helena, Montana

MONTANA WHEAT SHIPPED TO OUT-OF-STATE DESTINATIONS

WHEAT MOVEMENT DOWN SLIGHTLY: Montana wheat shipments to out of State destinations during the last six months of calendar 1973 totaled 52.7 million bushels--down 1 percent from the same period of 1972. (Part of this reduction is due to slightly reduced survey response but less than one percent.) Winter wheat movement from July through December of 1973 was 31.3 million bushels--up 19 percent, while spring wheat movement dropped 20 percent to 21.4 million bushels. Movement to eastern destinations totaled 1.1 million bushels during this period compared with 5.3 million bushels last year. Shipment to the west was 51.5 million bushels, while last year's total for the same period was 47.8 million bushels.

The total wheat moved by truck was 8.0 million bushels compared with 9.4 million bushels last year. Rail shipments were up 2 percent to 44.6 million bushels.

This report is based on data from commercial elevators representing nearly 95 percent of the commercial storage capacity in Montana and from licensed truckers. It does not include wheat moved through unrecorded channels.

Released: December 3, 1973 -- Helena, Montana

MONTANA WHEAT SHIPPED TO OUT-OF-STATE DESTINATIONS

WHEAT SHIPMENTS CONTINUE INCREASE: Montana wheat shipments to out-of-State locations during the 1973 January - June period were 35 percent greater than the first half of 1972. Total wheat shipped out of State during the period reached 53,170,000 bushels. Of the total, winter wheat amounted to 30,329,000 bushels and spring wheat shipments were 22,841,000 bushels.

Wheat moved to western destinations was nearly 95 percent of the total, with most of the rest going east. Rail transport moved about 84 percent of the wheat compared with 76 percent last year. Wheat trucked out of State decreased nearly 12 percent from a year ago.

These data are based on reports from elevators representing 95 percent of the commercial storage capacity in Montana, and reports from licensed truckers. Wheat moved through unrecorded market channels are not accounted for in this report.

Wheat Movement Summary

STATE DOCUMENTS

MAY 11 1973

Montana Department of Agriculture
Montana Wheat Commission

and

Statistical Reporting Service
USDA

Released: May 15, 1973 -- Helena, Montana

MONTANA WHEAT SHIPPED TO OUT-OF-STATE DESTINATIONS

MOVEMENT UP SIGNIFICANTLY: Montana wheat shipments to out of State destinations during the last 6 months of 1972 totaled 53.2 million bushels, nearly double that for the same period of 1971. The July through December movement included about equal amounts of spring and winter wheat with most of the increase moving westward by rail. Eastern movement totaled 5.3 million bushels during this period, up about 1 million bushels and western travel increased to 47.8 million bushels compared with 22.6 million in 1971.

Total wheat trucked out of State increased 10 percent from the last half of 1971 to 9.4 million bushels while rail shipments increased 139 percent to 43.8 million bushels. All districts showed large increases in wheat shipments compared with 1971.

This report is based on data from commercial elevators representing 95 percent of the commercial storage capacity in Montana and from licensed truckers. It does not include wheat moved through unrecorded channels.

Released: September 21, 1972

MONTANA WHEAT SHIPPED TO OUT-OF-STATE DESTINATIONS

SHIPMENTS FIRST HALF OF 1972 UP 36%: Montana wheat shipped to out-of-State destinations in the first 6 months of 1972 amounted to 39.5 million bushels compared with 29.1 million bushels in the first 6 months of 1971. The January through June shipments contained slightly more winter wheat than spring wheat, with winter wheat totaling 20.1 million bushels and spring wheat 19.5 million.

Westward movement accounted for 35.6 million bushels, while 3.9 million bushels moved to eastern and other destinations. Rail cars carried 30.0 million bushels and trucks carried 9.5 million.

These data are based on reports from elevators representing 94 percent of the commercial storage capacity in Montana, and reports from licensed truckers. Wheat moved through unrecorded market channels are not accounted for in this report.
